SUMMARY

Informatics student at Universitas Muhammadiyah Surakarta with an interest in mobile application development. Experienced in building Android applications using Flutter and developing web-based solutions through academic projects and internships. Passionate about learning new technologies and creating user-friendly digital solutions.

EXPERIENCE

Informatics Laboratory Intern

March 2026 – May 202

- Developed a web-based laboratory module collection system using Google Apps Script and Google Sheets.
- Built a user submission form and an admin dashboard with authentication.
- Integrated Google Sheets as the application's database.
- Conducted system testing and deployment to ensure application reliability.

PROJECT

Deen App (Mobile Programming)

- Developed the Asmaul Husna feature with audio playback using Expo Audio.
- Integrated a REST API to display the Hijri Calendar.
- Implemented the User Information screen and its functionality.
- Collaborated with team members in developing and testing the application.
